

## Recommended dosage Chart

DRINKABLE PROBIOTICS	RECOMMENDED DAILY DOSE	GENERAL RECOMMENDATIONS
Original Line – 50B  Bio-K Bio	Each bottle contains 1 to 4 servings.  When new to probiotics, start gradually and increase intake to target your needs.  50B  12.5B	<ul> <li>Always shake the bottle before drinking. Since the fermentation process keeps evolving, the texture may vary over time and the taste can be more tart when close to the best before date.</li> <li>Must be refrigerated.</li> </ul>
Bio-Kidz	Each bottle contains 1 serving.  1 bottle daily to benefit from the active and alive bacteria.	<ul> <li>Once opened, a Bio-K+ bottle can last up to 7 days in the fridge, when the bottle is well closed.</li> <li>You can take Bio-K+ at any time of the day, with or without food. Take it at the same moment on a daily basis.</li> </ul>
Extra Line – 80B  Bio-K Bio-K Bio-K Extra 1800-K	Each bottle contains 1 serving.  1 bottle daily to fully benefit from the active ingredients.  A great option for regular probiotic users looking for extra support.	Don't mix your probiotic with warm foods and do not cook it.
PROBIOTIC CAPSULES	RECOMMENDED DAILY DOSE	GENERAL RECOMMENDATIONS
	NEGOTIMENSES BAILT SOCE	GENERAL RECOMMENDATIONS
Original Line – 12.5B, 25B or 30B	1-2 capsules once daily at any time of the day, with or without food. Take it at the same moment on a daily basis.	<ul> <li>Capsules are suitable for children of 6 years and older provided they can swallow the capsules.</li> <li>Do not open the Bio-K+ capsules. All of our capsules feature targeted release technology to protect the probiotic bacteria and ensure they</li> </ul>
Pio Me	1-2 capsules once daily at any time of the day, with or	<ul> <li>Capsules are suitable for children of 6 years and older provided they can swallow the capsules.</li> <li>Do not open the Bio-K+ capsules. All of our capsules feature targeted release technology to</li> </ul>
